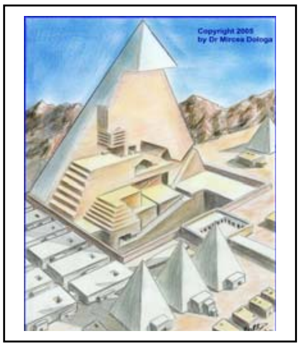
World Charting REPORT

using Integrated Pitchfork Analysis



by Dr Mircea Dologa, MD, CTA

MORNING of January 12 – 2009

The traders must progressively monitor the conditions of the market movements that validate or invalidate the recommended forecasts. The market forecasts of this study have a very high probability, but they might not be exact. An astute trader always trades the market behaviour, not only the forecasts. *Go with the market, let it be your guide and never impose anything on its behaviour*.

Our research strongly suggests a "*top-down*" market analysis rather than other procedures. In our opinion, the performed studies with *Cash Index* data are more illustrative than those with *Futures Index* data. However, due to our *Futures* trading preferences, we will use every time, the most adequate data, for that specific traded vehicle.

About the Author

Dr Mircea Dologa began his investment and trading career in the pharmaceutical and real estate industries in 1987. Once he passed the Series 7 and Series 3 exams, he realized the scarcity of the true '*know how*' practical tools in financial literature and seminars. After reading hundreds of trading books and attending numerous seminars, the same question kept popping up: *Where is the meat*? Most of the time, besides the classics… it wasn't there!

As a registered Commodity Trading Advisor (CTA) with the National Futures Association of U.S.A., he founded a new teaching concept, mainly based on practical aspects of trading, for both newcomers and experienced traders.

He is an international contributor to trading magazines in the USA ('*Technical Analysis of Stocks & Commodities*', '*Futures*'); the United Kingdom ('*The Technical Analyst'*); Germany ('*Traders'* – English- and German-language editions); Australia ('*Your Trading Edge'*) and Asia ('*The Trader's Journal'*).

Dr Mircea Dologa has written three books, over 1200 pages and 1100 charts, in his quest to teach the art of trading from the beginner's level to the highest nowadays standards. The author's main thought during the three years of planning, conceiving and writing these books was how to optimally reveal the practical aspects of trading.

Dr Mircea Dologa attended New York University and Cooper Union School of Engineering and Science in New York and graduated from the latter with a B.S. in Theoretical Physics. He obtained his Doctorate in Medicine from the School of Medicine in Paris. He also took MBA courses in finance and business management at the University of South Carolina in Columbia and at the French School of Business and Finance (HEC Paris France). After holding the positions of Medical Director and later of General Manager, in 1992 he decided to focus exclusively on his investments and since then he has devoted his activity to financial markets. He lives with his wife and two daughters in Paris, France.
